Your Crack the Case special on Friday Feb. 15th was wonderful! My name is Vanessa L. Tate, President of The Heidi Search Center and I watched your special that profiled cold cases here in San Antonio. I knew that the center was going to be profiled, but I had no idea that the station would go so in-depth with the stories. It was by far, nothing short of brilliant. It was informative and profiled cases that seemingly have no hope.

I was especially happy to hear Heidi's case finally recognized as a cold case. I'm one of the original volunteer's from 1990 when she was abducted (Gina Galiviez interviewed me on the center's 10th anniversary) so her case has a lot of meaning to me, personally as well as professionally. We deal with so many cases at the center and I don't think the city of San Antonio realizes how blessed they are to have a resource like the Heidi Search Center locally. We offer not only the professional services (fliers, searches, education, etc.), but the emotional aspect as well. Most of the cases your station profiled our center has handled and the media exposure for their families to find justice was so refreshing to see. I don't think any of you realize what an impact your story will have, not just with tips that were called in, but the simple recognition for these families to know that San Antonio does care. That their son's, daughter's, husband's, grandparents, and friends lives that meant so much to them, mean enough to your station to find them closure, and most importantly justice.

The only thing I wondered though was why Erica Botello's case wasn't profiled as well. She and Heidi were found on the same day, and both killer's remain at large. If you would like anymore information on her case, we would be happy to assist you.

Your station has done a great job, and in only 30 minutes you profiled so many victims with families who struggle with their losses everyday. I can assure you that with your special, a lot of good will come forth.

Sincerely,
Vanessa L. Tate
President, Heidi Search Center

P.S. I sent this on Monday but received a message that it wasn't delivered to

Mr. Jim Joslyn
Vice President & General Manager
KSAT-TV
1408 N. St. Mary's
San Antonio, TX 78215

Dear Mr. Joslyn,

On Monday, October 1st, you graciously opened your studio to my office and Bexar County Legal Aid to host a domestic violence call-in hotline. I want to thank you for your support of Domestic Violence Awareness Month and our efforts to raise awareness within the community concerning a problem that affects thousands of households in Bexar County.

The phone staff handled almost 150 calls throughout the afternoon. Although this is fewer calls than received last year, we know that assistance was provided to individuals who may have been unwilling to reach under any other circumstances. Many calls received were from family members worried about their children who are living in violent relationships.

As always, everyone at KSAT was extremely helpful. Ms. Bernice Luna went out of her way to make this event possible and provided for our every need, including refreshments for our volunteers. Your hospitality was appreciated by all. Once again, thank you for your part in our work to stop domestic violence. I believe we can make a difference with support from our community partners such as KSAT-TV.

Sincerely,

Susan D. Reed
Criminal District Attorney

As a mother of eight, of which two are active duty, I thank you for the access to information. My Jason [AO3, Kitchen, Jason] was on his way back from his six month cruise when the USS ENTERPRISE CVN-65 was ordered back to the Persian Gulf. This was hard, considering all that the nation has endured. It is especially important to us to stay informed about the happenings over there, as we lost a son 176 weeks ago, and this is that time of year when we really need each other, as that son departed this world on Pearl Harbor Day. Jason's ship was in the last battle the US saw. It was his ship that fired those first shots. My littlest three children really need to keep in touch with what happens. Their Dad is very visually impaired and has since lost most of "who" he once was. A retired enlisted man of 24+ years in the Air Force, he was especially proud to pin his daughter, Amanda when she was commissioned this past August. Amanda just went active duty @ Randolph this week. At least one we can keep in touch with easier.

I am so proud of all the service folks. They are all my hometown heroes. but Jason & Amanda are this mom's two favorites.

I enjoy getting any & all info on the "BIG E"; as she is referred as! I often miss the film clips on all channels, as I am very community minded and do Cub Scouts, Girl Scout, I teach a CCD class on Sundays @ St. Rose [on Marbach] as well as hold down a job and do many jobs w/in the scouting community. Plus I watch my granddaughters in my spare time! So, any heads up or opportunity to tape any clips really helps. I printed as much info from your data here as I could, I am making a scrap book for Jason as well, as momentos for the three little ones. Many thanks for all the great energy you give this! One really grateful retired Military wife & Mother!

THE DEPARTMENT OF THE ARMY
321st CIVIL AFFAIRS BRIGADE
1920 HARRY WURZBACH HWY
SAN ANTONIO, TX 78209-6011

30 July 2001

Mr. Jim Boyle
KSAT-TV
1408 N. St. Mary's
San Antonio, Texas 78215

Mr. Boyle:

As the public affairs officer of the 321st Civil Affairs Brigade, I speak for the Brigade and its subordinates in thanking you for the coverage you provided your broadcast area regarding the activation and deployment of a contingent of our reservists for a six to nine month deployment in Kosovo. It was important to each soldier personally to know their activation was important enough to this community to merit your interest. And it was important to our reserve unit -- and all reservists -- for the public to know we are always training, ready and willing to be activated when our country calls us.

As you know, you covered the departure of our soldiers at the airport Sunday. Your cameraman was instinctive and professional. Our soldiers, at first unaccustomed and uncomfortable being in front of a camera, quickly felt at ease and began telling their stories. I'm sorry I didn't get the cameraman's name, but would you please pass on my unit's thanks and appreciation.

The public affairs community within the Army is working diligently to educate soldiers to the importance of the relationship between the military and the media. We realize you have the obligation to your audience to report what is going on in your community and we have the responsibility to tell the Army story and let taxpayers know how we're spending their money. I think both of these missions were accomplished this past week during the mobilization process of our soldiers.

Again, my thanks to you and your news team.

Sincerely,

David H. Bennett

To Jim Boyle and
the entire KSAT-12
family,

We want to thank you
for giving us the opportunity
to use the KSAT-12 phone
bank for the Hondo tornado
relief effort. We received over
\$20,000 in donations as a
result of the message that
you helped us to send. Perhaps
even more importantly, we were
able to educate our community
about the types of assistance we
provide and how our volunteers
help people here in South Texas
as well as other areas where
people are in need. We really
enjoyed spending a day at
your studios, meeting the anchors,
and watching your broadcast
from behind the scenes. Thank
you especially for your hospitality,

your graciousness and, most
importantly, for your
support of the work we do.

We hope that your staff and/or
crew will be able to use these
coupons for free first aid & CPR
instruction. We look forward
to having you in some of
our upcoming courses.

Thanks so much,
Kathryn Heck

Dear Jim,

Just a note to thank you, again, for all the effort and support that went into the production of our 1998 campaign video for the U.T. Health Science Center. I wanted to let you know that all of KSAT's hard work and professional direction of your production manager, Don Williams, resulted in a record-breaking campaign last fall by that campus.

In fact, last Friday, their campaign was recognized in Austin with two special State Employee Charitable Campaign awards. Our Health Science Center took the award for the *highest per capita gift* for large institutions of higher learning, as well as the top award for the *highest participation* among those universities.

Of course, you and your crew helped to make this success possible. Thank you for your generous service in producing the UTHSCSA video. It was one in-kind contribution that certainly made a difference in our campaign -- a difference that translates into countless results that benefit the lives of those in most need all across our community.

Sincerely,

Howard J. Nolan
President

1408 North St, Marys
San Antonio
Texas 78215**

Dear Mr. Joslyn,

Words alone are not enough to express my thanks to you and all of your wonderful staff at KSAT 12. Thanks to you, my two sons and myself have made it through to this Christmas day with a feeling my husband is with us in spirit. Honoring my husband and all the military as you did, in a beautiful, tasteful manner, has been therapeutic for me in more ways than you shall ever know. The Christmas lights (although not the greatest looking ones) represents the love and respect I feel for my husband and what he stood for.

I have been approached by viewers in stores, at the military base, by mail, and phone calls from old acquaintances, all praising KSAT 12 for the wonderful tribute. KSAT 12 is without a doubt "The People's Station," the station that cares. Please convey our thanks to Maury Vasquez (a very compassionate man) , as was his cameraman whose name I do not know, and all of the team who helped with the tribute for those who served, and those who are still serving our country.

Wishing you continued success in the years to come. May you all be blessed.

Respectfully Yours

Catherine Cain

Mr. Jim Joslyn
Vice President & General Manager
KSAT-TV
1408 N. St. Mary's
San Antonio, TX 78215

Dear Mr. Joslyn,

On Monday, October 6th, you once again, graciously opened your studio to my office and Texas Rural Legal Aid to host a domestic violence call-in hotline. I want to thank you for your support of National Domestic Violence Awareness Month and our efforts to raise awareness within the community concerning a problem that affects thousands of households in Bexar County.

The Attorneys and Victim Advocates that manned the phones handled 171 calls throughout the day. This is a 37% increase in calls from last year's hotline. I hope this is a sign that more people are willing to "break the silence" that surrounds domestic violence. I know that we were able to provide important information and referrals to those who called yesterday. As we experienced last year, many calls received were from family members worried about their love ones who are living in violent relationships.

Please express my thanks to Ms. Bernice Luna and other staff, who went out of their way to make this event possible and provided for our every need, including refreshments for our volunteers. Everyone in your organization is great to work with and we always have more volunteers than we need who really enjoy spending the afternoon at KSAT. Once again, thank you for your part in our work to stop domestic violence. I believe we can make a difference with support from our community partners such as KSAT-TV.

Sincerely,

Susan D. Reed
Criminal District Attorney

Jim Joslyn

**KSAT 12
EDITORIAL**

“The Star Storage Lesson - Some Stars Don’t Belong In our Sky”

Air Date: Friday, July 4, 2003 -- 12:00 Noon
 Friday, July 4, 2003 -- 6:00 PM

Repeats: Monday, July 7, 2003 -- 12:00 Noon
 Monday, July 7, 2003 -- 6:00 PM
 Wednesday, July 9, 2003 -- 12:00 Noon
 Wednesday, July 9, 2003 -- 6:00 PM

In an act of unprecedented arrogance, Star Storage gave our city a tough lesson in environmental pollution. They put up disgusting eyesores in the form of billboards. Our city leaders must now show that they learned the lesson and fight back. They must take a serious look at all the billboard ordinances, and start to clean up our beautiful, unique skyline. Other cities have stood their ground and changed their laws to rid their freeways of ugly signs. San Antonio should follow suit. It’s time we showed some courage. If the rules need to change, get tough and change them. Our skyline and green spaces are too beautiful to destroy with clutter.

Subject: San Antonio Signs

Dear Sir:

I caught the tail end of your editorial the other night having to do with San Antonio's sign clutter. Is this correct? I would be very interested in knowing what you said. Is it possible to get a transcript of your editorial?

We are dealing with sign issues here in Bulverde. We are trying to develop and enforce an ordinance that, while being fair to the businesses, incorporates a plan that will hopefully help keep Bulverde tidy from visual clutter for many years to come. This community is exploding, and without a plan, sadly we may find ourselves in San Antonio's shoes.

I hope you can help me out.

I always enjoy hearing what you have to say, and thank you for your time.

Subject: Air Quality Meeting & Information

Dear Mr. Joslyn:

Thank you for meeting with Judge Wolff, Mayor Heath and me this morning. I believe that KSAT could be the very best way to keep the public informed of the status of their air quality and the health threats related to bad air quality.

I am at your disposal to help develop a method of air quality announcement, whether through the Air Quality Index or Air Quality Health Alerts, that will work for your station and it's viewers.

During the meeting this morning, you requested the locations of the ozone monitors in our area. They are:

Marshall Highschool, 6655 Bluebird Lane
-representing north west San Antonio

Camp Bullis, near Wilderness Rd.
-representing northern San Antonio

Calaveras Lake, 14620 Laguna Road
-representing south east San Antonio

Pecan Valley, 802 Pecan Valley Dr. (next to CPS power plant)
-representing east central San Antonio

If you'd like, you can click on this link:
http://www.tnrc.state.tx.us/cgi-bin/monops/select_curlev?region13_cur.gif
to see the locations of those monitors and the current ozone levels (with color-coded Air Quality Index boxes) at each location.

In addition, this summer we expect the activation of 5 new ozone monitors around the region. Their prospective locations are:

Bulverde Elementary, 1715 E. Ammann Rd., Bulverde
-representing southern Comal County

Elm Creek Elem., 11535 Pearsall Road, Atascosa
-representing southwest Bexar County

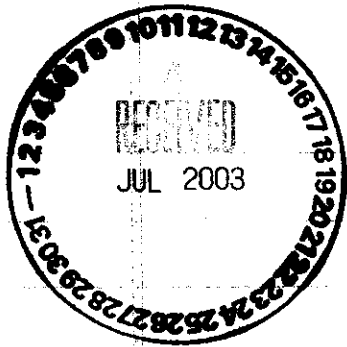

Fair Oaks Ranch Elementary, Fair Oaks Ranch
-representing the Kendall County/Bexar County border

National Weather Service, 2090 Airport Road, New Braunfels
-representing the San Antonio-Austin corridor

Trinity University
-representing north central San Antonio

I hope that these monitor locations will help to "bring home" the concept of air quality for your viewers. Thank you again for meeting with us this morning. Please don't hesitate to contact me with questions or issues. I look forward to working with KSAT in the effort to increase coverage of Air Quality Health Alerts and the Air Quality Index.

Sincerely yours,

Dear Mr. Foslin,

Thank you so much for
your recent editorial concerning
billboards in San Antonio.

I thought I was the only
one who objected to these ugly
billboards all over our city. Besides
the subject matter on many of them,
the size of the poles (??) are huge.
They are ruining our beautiful city. It
breaks my heart but also makes me
angry. I believe people are powerful
if we unite in our objections to these
monster billboards!

If there is anything my family
can do to urge the mayor and city
council to change the laws please let
me know.

Sincerely,
Pat Brooks

Lettie Hiatt

Subject: Annexation

Thanks for the coverage of the annexation hearings at the City Council last night.

I am writing to clarify some of the pertinent issues:

- 1) The city notified residents approx. 1 month ago of the proposed annexation. The service plans were presented to residents over the last two weeks. The first council hearing was one week ago. The city council will vote on the issue in November. It is obvious the city is rushing through this plan before 1 Jan 03 when SB89 will put severe restrictions on how cities can annex property.
- 2) The service plan presented by the city is full of holes and incomplete. For example, in our area the city thinks there are 94 homes when in fact there are over 200. In the next 5 years, the Kyle Seale/1604 areas will grow by nearly 4500 houses. Other areas are equally underestimated. For the entire NW side annexation, they propose to add two police officers and no additional fire service. Some residents are over 10 miles from the nearest fire station, yet the city will charge them for services they will never receive. Some areas who are on septic systems, use wells, etc. will receive no services from the city but certainly will pay taxes. Residents and resident groups have not been offered any opportunity to provide input into the service plan.
- 3) We all wonder why the areas off 281, i.e. Summerglenn, was dropped from the plan several weeks ago. The paper said it was because the city didn't feel they could provide services from existing resources. As you know, the Southside part of the annexation is on limited purpose annexation which means they will not pay taxes for at least three years while services are being set up. We feel like we have middle child syndrome in the NW area. We aren't rich enough to apply a lot of political pressure and we aren't poor enough to cry poverty.
- 4) Residents are overwhelmingly opposed to annexation at this time. The biggest reason cited is the fact that this plan is being rushed through with little planning and virtually no resident input. Our perception is that the city is desperately looking for cash sources and sees this as an opportunity to get some quick cash with little expenditure. Out of the over 200 households in our area, 406 residents have signed petitions against annexation.
- 5) The city council, at this time, seems to be accepting as fact seriously misleading figures and estimates from the city planners. Maybe they don't want the facts. In their rush to get this through before 1 Jan, they are ignoring or refusing to look at reality. If this plan goes through, we will end up paying for virtually no services and/or services to current San Antonio residents in the Northwest area will be severely degraded.
- 6) What our residents want is for this train to slow down. We want resident input into the services plan, plans and services in place before annexation, and an end to this pyramid scheme the City Council is playing. They are like the guy who takes a cash advance on one credit card to pay another.
- 7) I think the mayor and the council are seriously underestimating the long-term consequences of this action. Between the Kyle Seale/1604 and the Galm/1604 areas there are over 1,000 voters opposed to the plan as it now stands. Legal assistance is being acquired and lawsuits will follow. We are not a bunch of country bumpkins and six-pack Charlies who will just let this pass. If the city doesn't change the way they go about this business, we will not only fight the plan right up to the end but we will mount a sizeable opposition movement to reelection of any council member who votes in favor of the plan (mayor included). I'm sure when current NW side residents see how their services will also suffer under this annexation, there will be opposition there as well.

KSAT 12
Program Director

Dear Program Director,

I would like to take this opportunity to thank you for the wonderful coverage you had on the visit of the Holy Father, Pope John Paul II this past week. For us as a Catholic family living in San Antonio and having been unable to travel to either Mexico City or St. Louis having had the opportunity to watch your news reports was very rewarding. With the appalling role models our children have to choose from nowadays it is refreshing to see such a wonderful example like the Holy Father as a positive role model who exemplifies humility, obedience and apostolic zeal.

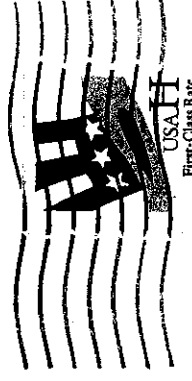

I commend you for your effort to bring noteworthy programming into our homes. Please continue doing your job and think about our children and our families when you decide on the programming your channel will be carrying. Thank you for bringing Pope John Paul II into our home for a few days.

Sincerely in Christ,

Susana Mares Treviño
